FRIDAY, JULY 5, 1901.

A town meeting is demanded to insure a thorough investigation of the water department and its methods. An expert should be put upon the job. Local town officers are not sufficient to meet the case.

Some republicans think that that party locally should get behind responsible for the condition of town affairs. Why not? That party has controlled town affairs upon party lines for years. It has elected its own officers without regard to the people and has controlled absolutely all the town affairs. If that party were controlled by the people, it would be a different matter.

Weymouth's experience in party domination of town affairs is not, to say the least, gratifying to a large number of citizens. It is a disgrace to the town. It is a disgrace to the people. It is a disgrace to the town. It is a disgrace to the people. It is a disgrace to the town. It is a disgrace to the people.

The first scene of the town by the engineer was on the crossing. The fireman saw the danger and shouted to the engineer, who immediately shut off the steam and applied the emergency brake, but it was impossible to avoid a collision.

The engine struck the front end of the first car, forcing the horses and throwing Mr. Bradley into the air. The horses were killed and the car was wrecked.

The train was in charge of conductor P. T. Sears, engineer E. F. Lawrence and fireman Harley Maitle. The train was in charge of conductor P. T. Sears, engineer E. F. Lawrence and fireman Harley Maitle.

The victim leaves a widow and one child, a brother, Rev. Bernard Bradley of Mount St. Mary's Seminary, Maryland, and three sisters, Miss Julia, Miss Bridget and Miss Annie Bradley of this place.

SPECIAL TOWN MEETING.

To Be Held at East Weymouth, Saturday Evening, July Thirteenth.

A special town meeting will be held in the hall at East Weymouth, Saturday evening, July 13, at 7:30 o'clock for the purpose of acting on the following articles:

Article 1. To choose a moderator.

Article 2. To see if the town will ratify the action of the board of selectmen, wherein they employed counsel to assist in criminal prosecution of George J. Hayes.

KILLED BY A TRAIN.

A Former Resident Meets with Violent Death at New Hampsh.

John Bradley Was Taking His Employer's Carriage to His Summer Residence.

John Bradley, late of Quincy, but a native of East Weymouth, and a son of James Bradley of Commercial street, was killed by a train at Richardson, N. H., Tuesday, a Boston Globe dispatch from Winton, N. H., under date of July 3, reads as follows:

"An accident which resulted in the death of one man and demolition of three carriages occurred today at Richardson, a flag station and crossing about two miles east of here. A passenger train consisting of a pair of horses and three carriages belonging to John H. Dingman of Quincy, Mass., and all in charge of John Bradley, who was on his way to West Weymouth, N. H., was struck by the train of Mr. D. W. Bradley of the summer."

"The first scene of the town by the engineer was on the crossing. The fireman saw the danger and shouted to the engineer, who immediately shut off the steam and applied the emergency brake, but it was impossible to avoid a collision."

Water Department Still Under Fire.

Superintendent Rises Again Before the Court and His Case Continues.

A week has gone by and little is to be added to the story of shortage and defalcation in the water department of Weymouth.

The case was called at the court in Quincy on Monday, the selectmen and water commissioners appeared with Justice Worthen as counsel, and Mr. Riles was defended by John W. McManney of Quincy.

In view of the absence of John H. Stetson, who was at home ill, and the unavailability of the auditors who are still at work on the books connected with the water case, a continuance was asked and granted until Tuesday, the 9th inst. In the meantime Mr. Riles' bail was set at \$5,000 in default of which he was again taken to prison.

The work of the auditors, which has gone back nearly three years, is said to show a regular and systematic raling of the pay roll after it had been prepared by the bookkeeper, a personal note of collections made for water rates and repairs by the defendant and a system of raling the figures for supplies purchased.

As yet the exact amount of defalcation is not known but it is close to \$100,000 with the books and records which have been found to extend back but little over two years and the amount appropriated by Mr. Riles will hardly exceed \$50,000.

The selectmen are working to get at the true financial condition of the town. They are not content with the figures which are being turned out by the defendant.

The auditors estimated the past year's work at the rate of \$100,000. The town is now in a state of financial distress.

PAN-AMERICA.

What to See and How To See It.

As many of our readers are turning their attention toward the great Pan-American Exposition, now on at Buffalo, and inquiring in regard to it, we will try to tell you what to see and how to see it.

In the first place we start in with the presentation that to most tourists is the most interesting feature of the exposition. It is the American continent and adjacent islands now going on at Buffalo, but also a visit to Niagara and a study of all the grandeur and beauty of this, the greatest wonder of the world.

Well, there are many different ways but here are a few that will give you a better idea of the exposition. It is the American continent and adjacent islands now going on at Buffalo, but also a visit to Niagara and a study of all the grandeur and beauty of this, the greatest wonder of the world.

A Break In the Levee.
THE DESPERATE REMEDY
BY WHICH IT WAS STOPPED.

For days the river had been rising.
The levee above was gone for miles
and miles, and the mud waters had
swept over the banks, carrying for-
tunes and even lives before them.

When they came by and put
bags in the hole, the levee had been
over, the little levee had been over,
the little levee had been over,

When they came by and put
bags in the hole, the levee had been
over, the little levee had been over,
